

Automotive OEM anti-corrosion finishing

Specification guide

**Already
on it.**

POWERED BY INNOVATION

Anti-corrosion coatings

Get the attention you deserve

As the worldwide leader in Anti-corrosion Coatings, **ESI Automotive** understands exactly what it takes to satisfy our customers' needs: the ability to listen to their challenges and the expertise to provide them with the highest performing solutions possible. Our portfolio

comprises of zinc, zinc alloy, trivalent passivates, topcoats and lubricants. These are applied by many of the world's largest surface finishing applicators for aerospace, automotive, construction and electronic components.

Anti-corrosion coatings

The OEM connection

ESI Automotive fully understands that **OEM's** are at the heart of the innovation process, and our dedicated **OEM** team is 100% focused on engineering specifically designed solutions to meet their every need. We work closely with them to develop the products that not only

meet their expectations, but that also help evolve the entire industry. It is a structured approach that yields outstanding results, and has enabled us to deliver the world's most advanced technologies for protection and performance.
